

Organizational Project Management Maturity Model, OPM3® Workshop

"Transforming Strategic Objectives into Business Results"

Course #: OP0750

Earned PDU: 21 PDU

Duration: 3 Days

Overview:

Leading businesses are increasingly valuing the role organizational governance and process leadership is playing in delivering the desired success to their organizations.

This workshop is designed to introduce the value Best Practices bring to organizations, and how selecting and implementing the proper ones assists in achieving organizational maturity. In addition to introducing the main concepts of how to standardize measure, control and consciously improve the business practices, this workshop presents practical case studies and tools that enable organizations to elevate the level of maturity through employing market proven organizational tools.

Objectives:

- Introduce the concept of organization maturity and how it transforms strategic objectives into business results
- Learn Organizational Maturity Best Practices, Capabilities and Outcomes
- Understand OPM3 as a tool for assessing and improving the organizational maturity
- Learn the role of organizational enablers and governance bodies in the organization
- Explore the Project Management Office functions and roles in the organization
- Review the Program/Portfolio Management Themes:
 - Governance Framework, Benefits Management, stakeholders Management
 - Strategic Planning & Business Process, Strategic Alignment, Monitoring & Control
- Master the Knowledge to learn how to qualify for the OPM3 certifications

Who Should Attend?

- Project Management Professionals (Program managers, program directors, PMO directors),
- Organizational governance professionals and strategists,
