

PMP® Fast Track Certification Exam Preparation

"Increase your Chances of Passing the PMP exam from the First Attempt"

Course #: PM0210

Earned PDU: 14 PDU

Duration: 2 Days

Overview:

This two-day session is developed to deliver a powerful "Jump Start" in the PMP Exam Preparation for those who have attended the PMP Preparation Course before, and would like to have a wrap-up course.

The materials delivered in this course will be around how to tackle the exam questions and to clear out any doubts while understanding the overall PMP exam contents by appropriate logical remembrance rather than memorization. Several tips and tricks will be delivered in this course. Participants will learn techniques on how to visualize the overall 44 processes, interpret the Inputs, Tools and Techniques and Outputs, master the techniques such as CPM, PERT and EVM. Additionally, there will be several challenging questions in order to practice on the readout, analysis and exercise an effective elimination approach.

During this two-day course, participants will receive a variety of sample exam questions in order to address the fast one line questions, situational questions, cases questions, story questions, questions on Inputs, Tools and Techniques, and Outputs, more difficult questions related to the subjects and many more that will empower the participants to build a strategy for answering a real exam questions.

Objectives:

Participants will:

- Get more familiarized with the PMP® exam questions
- Practice on how to read the PMP® exam question, determine the question requirements, analyze the answers, use the elimination technique, and decide on the best answer
- Exercise on how to work around lengthy and unidentified question's objectives
- Master to answer sharp quick questions, such as definitions, terms, simple cases, conventions, interpretations, practices, and many more
- Learn how to relate and link relevant subjects logically without the burden of any memorization
- Learn how to remember equations and how to apply them properly when needed
